| 3. Rationale for Determination | |
| <i>(How did you reach this compliance determination)</i> | |
| Intent 1: Develop, with participation from all school divisions, a province-wide policy to limit, reduce, and phase-out exclusionary practices. 2021 <ul style="list-style-type: none"> • The <i>Better Education Starts Today</i> strategy addressed this recommendation in priority action 3.2 of the strategy, which states: “Review and update Manitoba’s Provincial Code of Conduct: Appropriate Interventions and Disciplinary Consequences (2017) and develop a policy on the use of exclusionary practices (i.e., seclusion, suspension, and expulsion) for all students.” • Based on the directives included in <i>Better Education Starts Today</i>, the development and | |

writing of a new provincial policy directive on the use of exclusionary practices is under way. The Student Services Inclusive Education Committee has been tasked with completing this work. Manitoba Education recently released a policy directive on Seclusion, and it is intended for the exclusionary practice policy directive to follow the same format. A stakeholder presentation was provided that sought feedback on what the content and format should look like for such a policy directive.

- Policy directives are used by Manitoba Education to identify what policies school divisions and schools should have in place, and what those policies should include. It is the expectation that all schools update existing policies or create new policies to be in line with a policy directive. Understanding whether school divisions and schools have appropriate policies in place is a mechanism of the review and report structure undertaken by the Inclusion Support Branch of Manitoba Education.

Intent 2: This policy should provide evidence-informed disciplinary alternatives that are in line with the best interests of the child and respect the right of children and youth to education.

2021

- The fulfillment of this intent will be based upon the content of the policy directive currently in-development. Work is underway towards stakeholder engagement and creating a committee to develop this policy.

Analysis Summary: The completion and release of the policy directive may fulfill the intents of this recommendation, pending the content of the policy. There have been promising steps taken in the implementation of this recommendation, including the initiation of writing a policy directive on the use of exclusionary practices in Manitoba schools. As the content of the policy directive is currently unknown, however, actions taken to date only fulfill part of the requirements, resulting in a partially compliant status determination.
